

What Stores are Saying:

We are two pharmacists who pride themselves in finding solid products that work for our clients. Immuno-300 has been one of the most remarkable products we have seen in years in the natural health supplement area. We have sold over 250 bottles in just a few short months, averaging 4 bottles per day. The product is selling off the shelf and our customers are getting results.

Alan Glasser, Pharmacist, Marks Plaza Pharmacy, Vancouver, BC

Promoting Immuno-300 is easy and exciting. It takes only a few minutes to explain the benefits, the enhanced formula, and the easy one-a-day dosage. Customers are willing and eager to try it. Immuno-300 is a product I can sell with great confidence because it makes good sense.

Bonnie Gadwa, The Big Fresh, Edmonton, Alberta

Since our three stores were introduced to Immuno-300 five years ago, we have been selling it literally every day to many of our customers. We are encouraged by the results our customers are getting. The product sells well, and our staff enjoys selling it because they see the results it gives to people.

John Biggs, Optimum Health, Edmonton, Alberta

As a store owner it is nice to have customers come back to ask for more Immuno-300, and tell me how well it is working for them. Immuno-300 outshines any of the competition.

Linda To, Health For You, Calgary, Alberta

It is always nice to try a new product and then find out that it is quite amazing in the results it gives people. As a store owner my reputation depends on the products I carry. I always pride myself in carrying unique and high quality products. I am in this business to help people.

Janet Jacks, Goodness Me, St Catherines, Ontario
