# Chlorella Hau

*Chlorella pyrenoidosa microalgae - natural food supplement*

Sanatur

• **to provide the body with natural vital substances in case of environmental stress<sup>(4) (8)</sup>**

- **supports during and after decontamination of amalgam<sup>(4)</sup>**
- **can be used for removal of harmful substances as by Dr. Dietrich Klinghardt**
- **accompanies and supports during fasting cures and detoxication**

6 weeks to 2 years

twice a year for 6 weeks, spring/autumn

The particularity of this algae is its cell wall. It contains sporopollenin which is said to have a heavy metal binding capacity.

- Persons who are charged with dental amalgam and other dental metals
- Persons with increased job-related stress (e.g. dentists, dentist-helpers, laboratory assistants, people who work in chemical fields as with colors, varnish, exhaust fumes etc.)
- Adults, Teenagers

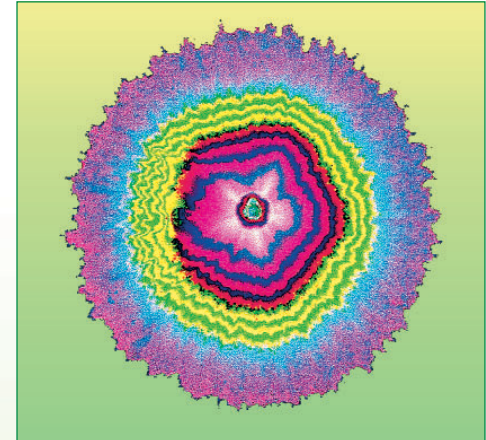

Adults, Teenagers: 3 - 15 tablets, capsules or 2 - 6 g powder, to swallow before meals, spread over the day, with a lot of liquid.

For small children, children, during pregnancy and nursing we recommend to consume Chlorella only after the agreement of a therapist.

The amount of consumption can be increased if necessary, an overdose of single substances is not possible.

Chlorella pyrenoidosa can be combined with all products of Sanatur. Especially advisable is the combination with Cilantro, SpiruSelenium and Omega-3-fatty acids.

Super-COLORPLATE® impressively shows the harmony of Sanatur-Chlorella

(4) experience values of the Sanatur survey with therapists 2001; (8)algae products helpful at amalgam decontamination (special print Erfahrungsheilkunde Band 48, Heft 7, Juli 1999, Dietrich Klinghardt

# Cilantro

*food supplement after decontamination of amalgam*

Adults, Teenagers: 2 - 3 tablets to swallow daily, spread over the day

For small children, children, during pregnancy and nursing we recommend to consume Cilantro only after the agreement of a therapist.

Cilantro is able to support the removal of quicksilver out of the nerve tracts and the brain. It should not be used together with Chlorella until the connective tissue is free of heavy metals (by Dr. Klinghardt). Please consult your therapist.
